BILL NYE'S TALE OF THE NEEDLE
 SWALLOWING HABIT.

A Sweet Young Creature With Dewy Eye
 and Her Sad Fate—Artemus Ward's De-
 scription of the Visit of the Women's
 Rights Females to His Show.

From the London Lancet we learn
 that "many years ago a case was re-
 corded by Dr. Otto of Copenhagen in
 which 495 needles passed through the
 skin of a hysterical girl, who had prob-
 ably swallowed them during a hyster-
 ical paroxysm, but these all emerged
 from the regions below the diaphragm
 and were collected in groups, which
 gave rise to inflammatory swellings of
 some size. One of these contained 100
 needles. Quite recently Dr. Bigger de-
 scribed before the Society of Surgery of
 Dublin a case in which more than 800
 needles were removed from the body of

a woman. It is very remarkable in how
 few cases the needles were the cause of
 death and how slight an interference
 with function their presence and move-
 ment caused.

It would seem, from the cases on re-
 cord, that needles in the system rather
 assist in the digestion and promote
 longevity.

For instance, we will suppose that
 the hysterical girl above alluded to,
 with 495 needles in her stomach, should
 absorb the midsummer cucumber. Think
 how interesting those needles would
 make it for the great colic promoter!

We can imagine the cheerful smile
 of the cucumber as it enters the stom-
 ach, and, bowing cheerfully to the fol-
 lies standing around, hangs its hat
 upon the walls of the stomach, stands
 its umbrella in a corner and proceeds to
 get in its work.

All at once the cucumber looks sur-
 prised and grieved about something. It
 stops in its heaven born collo generation
 and pulls a rusty needle out of its per-
 son. Maddened by the pain, it once
 more attacks the digestive apparatus
 and once more accumulates a choice job
 lot of needles.

Again and again it enters into the
 unequal contest, each time losing
 ground and gaining ground, till the
 poor cucumber, with assorted hardware
 sticking out in all directions, like the
 hair on a cat's tail, at last curls up like
 a caterpillar and yields up the victory.

Still this needle business will be ex-
 pensive to husbands if wives once ac-
 quire the habit and allow it to obtain
 the mastery over them.

If a wife once permits this demon ap-
 petite for cambric needles to get control
 of the house, it will soon secure a ma-
 jority in the senate, and then there will
 be trouble.

The woman who once begins to tam-
 per with cambric needles is not safe.
 She may think that she has power to
 control her appetite, but it is only a
 step to the maddening thirst for the
 soul destroying darning needle and per-
 haps to the button hook and carpet
 stretcher.

It is safer and better to crush the first
 desire for needles than, when it is too
 late, to undertake reformation from the
 abject slavery to this hellish thirst.

We once knew a sweet young crea-
 ture, with dewy eye and breath like
 timothy hay. Her merry laugh rippled
 out upon the summer air like joyful
 music of balheaded bobolinks.

Everybody loved her, and she loved
 everybody, too, but in a thoughtless
 moment she swallowed a cambric needle.
 This did not satisfy her. The cruel
 thralldom had begun. Whenever she felt
 depressed and gloomy, there was noth-
 ing that would kill her ennui and mel-
 ancholy but the fatal needle cushion.

From this she rapidly became more
 reckless, till there was hardly an hour
 that she was not under the influence of
 needles.

If she couldn't get needles to assuage
 her mad thirst, she would take hairpins
 or doorkeys. She gradually pined away
 to a mere skeleton. She could no longer
 sit on one foot and be happy.

Life for her was filled with opaque
 gloom and sadness. At last she took an
 overdose of sheep shears and monkey
 wrenches one day, and on the following
 morning her soul had lit out for the
 land of eternal summer.

We should learn from this to shun
 the maddening needle cushion as we
 would a viper and never tell a lie.—
 Bill Nye.
